Levi's Ads Assignment

for
University Assignment

One of my advertising
assignment at university

Mt. Merapi, literally known as the mountain of fire, towers over the Jogjakarta region at about 2,930m, and although it is not one of the highest mountains in the area (that being Mt. Slamet at 3,428m or Mt. Semeru in Eastern Java at 3,676m), Mt. Merapi masterfully remains the most active volcano, especially in relation to the dense populations surrounding it. Mt. Merapi is certainly not such a brooding terror when it comes to a pleasant hike, as people with literally no climbing experience...

HIKING

Fell the heat with a little adrenaline with motor trail or jeep tour. With a beautiful view of mount merapi, explore the beauty and adrenaline while passing rocks and lava's river. For real adventure you can go and exploring the beauty of Kalisuci ancient cave, do rafting and trace the rapid rivers flow inside the cave.

The other off road thing you can do is cycling. Cycling down the slopes was like breaking the gushing

VOLCANO TOUR

winds right in front of you and it felt good being free from inhibitions. Calm as the wind, just me and my bike. From the rocky terrain down to the side patch of the green rice fields, my mind was somewhere in Bukidnon. The small village reminded me a lot of my hometown. Aside from the greeneries, the slow-paced lifestyle, free from the city's roaring horn. Experience it yourself!

CAMPING

The camping area is managed by National Park of Mount Merapi. The area is offered various kinds of natural beauty,

such as mountains, sparkling water, tall trees, that looks green and fresh air all of the day. From this area you can enjoy the enjoy the majesty of Mount Merapi. At night, you can look sparks and molten lavas that coming out...

OFF ROAD

If you visit the area of Lava tour in the morning, the atmosphere is still very peaceful and breath-taking. Lava Tour itself is centered in Kinahrejo village, Sleman regency. The trip started at 4 am from rental jeeps base-camp. Then you will be taken through extreme regions with Kaliadem as

the ultimate destination, which is the highest site that can be reached while enjoying the slopes of Merapi Sunrise in the area with the cold but fresh air. Besides Kaliadem Sunrise Trip, there is also d Merapi Night trip offered. From Merapi's slopes you can enjoy the beauty of the city of Yogyakarta and surrounding areas at night.

Independence Monument in Bogotá, Colombia. The monument is a large equestrian statue of Simón Bolívar, the leader of the independence movement. It is located in the center of Bogotá, Colombia, and is a major landmark of the city. The statue is surrounded by a large plaza, and there are many people walking around it. The monument is a symbol of the city's independence and is a popular tourist attraction.

James' support of American slavery, a theme that again was central to many of his writings, is demonstrated in his concluding letter to his correspondents, published in the *Journal of the American People*. In this letter, James expressed his support for the institution of slavery, and his opposition to the abolitionists. He stated that the institution of slavery was a necessary part of the American economy, and that it was the duty of the American people to support it. He also stated that the abolitionists were wrong to demand the immediate abolition of slavery, and that the institution should be gradually phased out.

Wake up to the glorious morning in the Presidential Suite. Come and have a cup of tea with me. I do like a little bit of hotel on my breakfast by the way.

Stop the Clock Strategies

2 Tips

Mahkota Anda

Coba trik dari **Patrick Melville** (stylist rambut asal New York) agar rambut tampak lebih sehat.

1. SEMPURNAKAN UBAH. Memawat rambut bukan satu-satunya cara menyamankan uban. Potong rambut dengan gaya layer atau poni panjang yang bisa disisir ke samping. Teknik ini akan membantu menyembunyikan uban yang terlihat di sepanjang garis rambut.

2. BERI VOLUME. Rambut yang dicat bisa menjadi rapuh dan terlihat tidak bervolume. Alami dengan model rambut bertopeng agar panjang untuk kesan 'petulu' (gaya pendek akan membuat ujung rambut berantakan). Cara cepat mengatasi rambut flat: semprotkan volumizing dry shampoo dan ratakan hingga ke akar rambut.

3. LEBIH BERKILAU. Rambut hitam mudah tampak kusam dan tak bervolume. Segera ganti shampoo dengan menyisir rambut menggunakan sisir datar berbentuk oval atau persegi panjang (biasa disebut paddle brush). Alternatif lain adalah dengan blow-dry. Panas hair dryer membantu 'mengecil' kutikula rambut. Ini membuat warna rambut menjadi lebih berkilau.

Tampil Natural

Angela Salveo, personal trainer dari New York memberi tip tampil alami:

Tinted Moisturizer melembapkan dan melindungi kulit hanya dalam satu langkah.

Brightener pada kantong mata. Siasat ini berguna mencerahkan mata.

Lip gloss warna nude mempercantik penampilan secara instan.

PERUT RATA

Para peneliti berspekulasi bahwa 'sedot lemak' kemungkinan besar berpotensi mengurangi daya hormon yang mengatur selera makan.

EYELINER UNTUK BULU MATA

Istirahatkan bulu mata dari maskara waterproof. Sebagai gantinya, gunakan eyeliner. Eyeliner cokelat tua dan perak cocok untuk kulit putih hingga sawo matang. Warna hitam lebih sesuai untuk kulit dengan tone lebih gelap (makeup artist **Pati Dubroff**). ■

Taylor, Inc.
604 Rockstar Lane
Durham, NC 27708

Dear Mr. Jones:

I am seeking a position in your engineering department where I may use my training in computer sciences to solve Taylor's engineering problems. I would like to be a part of the department that developed the Internet Selection System but am unsure whether you have a current opening.

I expect to receive a Bachelor of Science degree in Engineering from North Carolina State University in June and by that time will have completed the Computer Systems Engineering Program. Since September 2000, I have been participating, through the University, in the Professional Training Program at Computer Systems International in Raleigh. In the program I was assigned to several staff sections as an apprentice. Most recently, I have been a programmer trainee in the Engineering Department and have gained a great deal of experience in computer applications. Details of the academic courses I have taken are included in the enclosed resume.

If there is a position open at Taylor Inc., please let me know whom I should contact for further information. I look forward to hearing from you soon. I may be reached at my office (919-866-4000 ext. 337) or via email (fbrock@aol.com).

Sincerely,

Rebecca Brock
