ABOUT

I'm a Hard Worker, curious and i'm willing to finished what i've started well. Beside that I like reading a book such as character building and business. And also i like have more friends and make a close relationship with them because i can learn more new things from them and can have more networking. I don't like waiting so i don't like the one who didn't come On Time because I always come On Time in every meeting. I have an integrity so you can save and trust while working together with me.

Experience

Education

Universitas Indonesia (UI)

Industrial Engineering
2011 – 2015, GPA : 3.58 (Cumlaude)

As an Industrial engineering I have unique perspective that fits to solve complicated issues, called helicopter view. This paradigm enables me to comprehensively all aspects and their linked to the problem, so the root cause can be derived. Defining the root cause will be a turning point to find an effective and efficient solution.

MAN Insan Cendekia Gorontalo

Senior High School
2008 – 2011, Bone Bolango - Gorontalo

Full scholarship from prestigious high school established by B.J Habibie. Being one of school delegation for Chemistry Science Olympiad. Getting 100 point in Math last national examination.
