SUMMARY

I am the type of guy of always oriented on result with one and half years experience in iOS development. I make it my goal to make iOS software with the user in mind, making applications with useable and intuitive user interface experience. I also understand the importance of creating highly readable and easily maintainable source code. I am adaptive to new technologies and constantly striving to learn it and of course look to ways to better myself in this rapidly changing industry.

SPECIALITIES

My development styles are quite similar. I like to keep everything simple, stay agile and responsive, so I can meet requirements quickly. In the making of iOS applications I often use Alamofire when working with swift and AFNetworking when working with objective-c as replacement of NSURLSession, because its simplicity. If you want to see my skills doing some stuff with swift you can visit my github profile: <https://github.com/avindiamanta>

SKILLS

Programming language (Object Oriented) :

Swift (Main Skills), Objective-C

iOS Frameworks :

- Core Data
- UIKit
- Core Graphics
- NSURLSession
- MapKit

Programming language (Client side) :

HTML5, CSS, Javascript, JQuery.

Programming language (Server side) :

PHP, MySQL, Ruby,

Content management system:

Wordpress.

Graphic design software:

Photoshop CS6.

LANGUAGES

Indonesian

English.

Dutch (Basic).

PORTFOLIO

Please check portfolio on my personal website and repositories:

<http://tiffanydiamanta.com/>

My Works On App Store:

LightFilter

This is the very first application that I published on iTunes Application Store. The idea was made application that capable to manipulate the color of picture by using iOS frameworks and give the ability to save the result on camera roll. This app can be downloaded: <https://appsto.re/us/3Eth9.i>

Surabaya Tour

This application intended to give information about interesting places in Surabaya by categorizing each type of places then once user picked the place there will be further information and guide to reach that place with two option maps using gps. So far there are more than 25 places and soon I will implementing google place api on the Surabaya Tour. This app can be downloaded: <https://itunes.apple.com/us/app/surabaya-tour/id1082270434?mt=8>

EDUCATION

Bachelor of Economics in Tourism and Hotel Management (2006 – 2011)

Universitas Ciputra – Surabaya, Indonesia (GPA : 3.15)

Management Skills and Internship Hospitality (2010 – 2011)

Inholland University of Applied Sciences – Haarlem, Netherlands
