WRITER'S NOTE

"I have developed an interest in art and fashion since I was a kid. Since 20 years ago, I never stop making explorations into this field. But, at the age 19, I was already on a dilemma as a teenager. I have decided to have 'common-passion' life track. As a person whose curiosity is pretty high, it was nothing to lose to explore my other talent and making new experience in marketing & advertising fields".
