To whom it may concern,

I am writing to express my interest in the Graphic Design position that is available in your company.

I believe my skills are suitable for the position you are offering. I graduated from Curtin University with a Bachelor degree in Creative Advertising and Graphic Design on February 2014. I have learned quite variety of software such as Adobe InDesign, Illustrator, Photoshop and After Effects during my bachelor study and besides that, I have also learned basic coding for website.

I have worked previously for Raffles Academy for a short period of time in 2013 as an intern. I believe I will have no trouble fitting in and adapting to the working environment. I must admit that I am still lacking in experience, however, I am quick to learn and willing to be trained in whichever area that I am still lacking. Furthermore, I am a highly organised person who can manage my time well and I have attention to detail. I can function as a team just as good as I perform as an individual and I believe I am able to deliver excellent results consistently through my commitment and initiative.

My resume contains additional details regarding my achievements and qualifications. It will be my pleasure to provide you with any other supporting documents if needed. I really hope to have an opportunity to discuss how I can contribute to your company.

Thank you for your kind attention and I look forward to hearing from you at your earliest opportunity.

Yours sincerely,

Angelia Jonathan
